### Urgent Action Needed to Defend the Unborn!

*(Psalm 22:9-10) But You are He who took Me out of the womb; You made Me trust while on My mother's breasts. I was cast upon You from birth. From My mother's womb You have been My God.*

Leaders of the majority in the U.S. House of Representatives and U.S. Senate have announced that one of their first priorities will be passage of legislation to mandate federal funding of the type of stem cell research that requires the killing of human embryos. The House of Representatives is currently expected to take up such legislation (Bill Name: H.R. 3) on Thursday, Jan. 11<sup>th</sup>. The new leaders in the Senate have indicated they also regard passage of this legislation as a priority, including Iowa Sen. Tom Harkin who is one of the bill's leading sponsors.

This bill was passed last year in similar form but was vetoed by President Bush from becoming law. Fortunately the votes were there to prevent any override of the President's veto. But with the new majority in Congress every vote will count regarding this bill's defeat. Again, we believe that adult stem cell research is very beneficial scientific research and Christians should support the fact that President Bush has done more to advance adult research than any President in history. But this kind of research does not necessitate the taking of human life and Christians, therefore, should reject all forms of embryonic stem cell research.

Your help is needed! Please IMMEDIATELY call your Representative in the U.S. House, and Senators Harkin and Grassley, urging them to oppose federal funding of research that requires the killing of human embryos. The other side is lobbying them hard; please make your Christian voice known!

#### ACTION STEPS

Please IMMEDIATELY contact your U.S. Congressman and Senator and ask them to vote against H.R. 3 and all bills supporting 'embryonic' stem cell research. Your Congressman and Senators can be reached at: (202) 225-3121 (U.S. House) and (202) 224-3121 (U.S. Senate).
